Ningbo Xinrun Textiles Co.,Ltd.

慈溪市鑫天制衣有限公司

Cixi Xintian Clothing Making Co., Ltd.

Ningbo Xinrun Textiles Co., Ltd. is located in Cixi City, Ningbo, Zhejiang Province. Near the world's longest Hangzhou Bay Bridge and Ningbo port, with convenient transportation. Our company are specialized in producing microfibre warp-knitting cloth and processing other various of microfibre cleaning products.

We started manufacture and exported microfibre cloth in 2003, at present, we have 12 sets warp-knitting machines, more than 300 sets sewing and packing machines, about 500 workers. The daily output is 250,000 pieces microfibre towel. Our products are woven by 100% superfine fiber with super absorbability and superior detergency. The texture is soft, durable and antibacterial as well. Our products have been sold to the United States, Germany, Britain, France and other EU countries, Japan, Hong Kong etc. more than 20 countries and regions abroad, enjoying a high reputation.

We can produce according to provided samples, or process for other companies. We promise to provide you first class products and service.

The President of company Mrs. Cen buyi sincerely welcome new and old friends at home and abroad to come to the guide and make profits together.

After open the microfibre

Comparative effectiveness

Principle of operation:

The superfine fiber's diameter is only 0.1Dan, its thickness is finer than 1% of human hair, because of its unique fibre structure and the special technology of opening fiber dyeing, the fabric surface is fluffy and soft, also because of the triangular section thread, the microfibre have super absorbalility and cleanability, So that it absorbs water as great as 10times of ordinary absorbent fibers and can absorb the dust with weights of seven times of its own without any damage or scratch on the surface.

The outstanding function of microfibre is quick absorption, quick drying and super soft.

Features:

1. Super absorption & Quickly dry
2. Super soft & Good hand feeling
3. Perfect cleaning ability
4. More durable and effective functions
5. Only work with water and without chemical
6. Environmentally friendly
